

Google Scholar

6 Important Tips for Teachers and Students

2017

www.educatorstechnology.com

1- Refine your keywords

- * Go to Google Scholar
- * Click on the arrow to the right of the search box
- * Choose which words or phrases you want to include or exclude

2- Search for articles by specific authors

- * Go to Google Scholar
- * Click on the arrow to the right of the search box
- * Type in the name of the author in the box next to 'Return articles authored by'

3- Search for articles in a specific publication

- * Go to Google Scholar
- * Click on the arrow to the right of the search box
- * Type in the name of the publication in the box next to 'Return articles published in'

4- Search for articles published within a specific timeframe

- * Go to Google Scholar
- * Click on the arrow to the right of the search box
- * Specify a timeframe by providing numerical values in the boxes next to 'Return articles dated between'

5- Create Google Scholar Alerts

- * Go to Google Scholar
- * Click on the envelope icon 'Alerts' on top of the search box
- * Alternatively, you can create an alert from within a Google Scholar search result by clicking on the envelope icon on the left hand side.

6- Locate the full text of an article

- * Click a library link
- * Click a link labeled PDF
- * Click "All versions" to check out the alternative sources;
- * Click "Related articles" or "Cited by" to explore similar articles.
